### **SCF COVID-19 Response**

Sunshine Community Foundation is focusing our efforts to meet community needs in 4 ways:

- Keeping government, private and nonprofits informed about resources
- Keeping up-to-date about nonprofit needs and letting those needs be known on our website
- Connecting nonprofit leaders in a Facebook Group where they can share resources
- Attaining and disbursing donations and grants to organizations and programs that are meeting the needs and addressing the gaps

### **COVID-19 Emergency Response Fund**

Sunshine Community Foundation is pleased to announce the COVID-19 Emergency Response Fund. The Fund operates in partnership with local governments, schools, the private sector and individuals to address current and emerging needs, and strategically fill gaps in support to expand local capacity to support individuals and families experiencing hardship because of the outbreak and related closures and disruptions. It exists to provide flexible resources to organizations in Sumter, North Lake and The Villages to alleviate the effects of the COVID-19 pandemic. To meet the urgent challenges of the COVID-19 outbreak in our area, charitable grants will assist organizations and programs working to provide residents who are on the front lines with clients, patients, and residents impacted by the health crisis. This includes organizations focused on:

- emergency food needs
- hygiene products
- rent and utilities
- health needs for the uninsured or underinsured, and
- support for hourly workers displaced from their wage-earning positions
- pet food
